Bulletin Number 31627BR

Type of Recruitment Transfer Opportunity

Department Beaches and Harbors

Position Title APPLICATION DEVELOPER II

Filing Type Open Continuous

General Information The Department of Beaches and Harbors is seeking well-qualified individuals to fill vacancy of Application Developer II.

Requirements Permanent County of Los Angeles employees who currently hold the payroll title of **APPLICATION DEVELOPER II**.

Permanent County employees who meet the requirements are invited to make their interest known by submitting: 1) cover letter with employee number, 2) resume detailing relevant experience, 3) copies of your last two performance evaluations, and 4) two years of Time History Report.

NOTE: ALL REQUIRED DOCUMENTS WILL BE ACCEPTED VIA ONLINE APPLICATION ONLY.

All materials submitted will be evaluated. Only the most qualified individuals will be contacted for an interview. The interview process will be used to determine the final selection.

Desirable Qualifications

Under general supervision, analyzes, designs, evaluates, develops, codes, tests, and maintains application systems. Incumbents in this journey-level possess a full range of analytical skills in programming. Working from program specifications and using one or more programming languages, they independently analyze, code, test, and debug program logic for a complete system or for a component or a module of a complex system. Incumbents understand and are able to apply a full range of application development

concepts, such as structured program design or object oriented design. Incumbents possess a thorough understanding of requirements analysis. They elicit and document requirements using industry standard methodologies and/or analysis tools. The Application Developer Series is distinguished from the Information Systems Analyst Series in that Application Developers perform programming duties and are required to have programming knowledge and experience.

Duties

- Codes, tests, and debugs application programs to create new business applications and interfaces or maintains/modifies existing business applications according to program specifications.
- Develops program specifications.
- Performs unit or modular testing and integration testing for new or modified applications.
- Writes and executes programs to extract, transform, and load data for system conversions.
- Prepares technical documents, user manuals, and help files. Identifies, analyzes, records, tracks, and resolves application problems.
- Develops functional requirements.
- Installs application software.
- Researches application development tools and methodologies and makes recommendations to management.
- Assists in the development of solicitation documents including requests for information, requests for proposals, requests for quotes, and statements of work.
- Assists in reviewing vendor performance.
- Assists in database management related activities for a specific application.
- Provides some technical support and training for staff (e.g., Microsoft Office: Word, Excel, and Outlook).

Vacancy Information

The vacancy is located in the Department of Beaches and Harbors, Administrative Service Division, Information Technology Section at 13837 Fiji Way, Marina del Rey, CA 90292.
